SECTION 01

Project Overview

NGV-WEB-001 · Choccoladd Website Proposal · 27 June 2026

EXECUTIVE SUMMARY

This document is a formal project proposal and service agreement submitted by the Service Provider to Newbox Greens Ventures, operating under the brand Choccoladd, for the design, development, and delivery of a complete official brand website.

Choccoladd is a premium Malaysian cocoa-derived product brand established in June 2024 in collaboration with Lembaga Koko Malaysia (Malaysian Cocoa Board). The website will serve as the brand's primary digital presence — showcasing food products, gift sets, non-food skincare items, brand story, company profile, and providing a direct channel for customer inquiries and orders via WhatsApp.

The Service Provider proposes to design and build the website from the ground up using modern web technologies, ensuring the site is fully responsive across all devices, professionally branded, and ready for immediate deployment upon final sign-off.
